

WHAT IS CLAIMED IS:

1. A remedy for muscle hyperactivity, comprising a purified botulinum neurotoxin as an active ingredient.
2. A remedy according to claim 1, further comprising a botulinum neurotoxin-stabilizing substance.
3. A remedy according to claim 2, wherein the botulinum neurotoxin-stabilizing substance is human serum albumin.
4. A remedy according to any one of claims 1 to 3, wherein the botulinum neurotoxin is derived from botulinum toxin type A, B, C, D, E, or F.
5. A remedy according to any one of claims 1 to 4, wherein the muscle hyperactivity is dystonia.
6. A remedy according to any one of claims 1 to 4, wherein the muscle hyperactivity is a disease that needs treatment with a fast-acting remedy.
7. A method of producing the remedy as defined in claim 2, comprising mixing a purified botulinum neurotoxin with human serum albumin.
8. A method of treating muscle hyperactivity, comprising administering a purified botulinum neurotoxin to a patient with muscle hyperactivity.
9. A method of treatment according to claim 8, wherein the muscle hyperactivity is a disease that needs treatment with a fast-acting remedy.
